

PBS logistics

your cost down partner in the supply chain

**Your Partner for Purchase Order Management
– Secure delivery dates from your
global supplier base**

**Purchasing & Logistics Solutions for Manufacturing
and Assembly Companies**

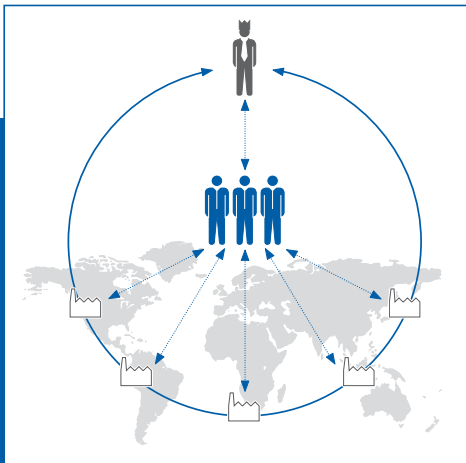

Company Profile

PBS logistics is a global outsourcing service provider and long-term specialist for pro-active purchase order management (POM). We secure and improve delivery dates with your global supplier base. By using efficient POM systems and a highly qualified purchasing team we achieve on-time production and delivery and improve your supplier's performance, logistics costs and working capital. Our pro-active Delta Management is far superior to static Tracking & Tracing systems you can find in the market. In the global procurement industry since 1993, you will benefit from our experience and performance. We offer a competitive and scalable outsourcing model.

PBS logistics is your service partner to improve on-time-delivery and drive down your logistics cost.

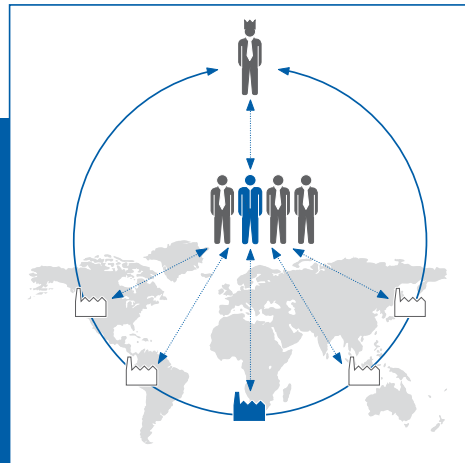

Value-Added Services you can choose from

Global POM Team

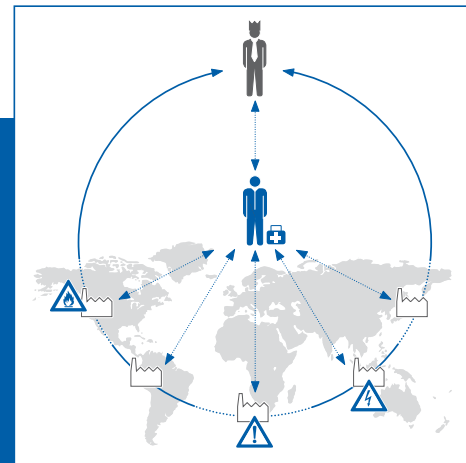

You are looking for a permanent POM solution that will help you decrease your logistics costs and make sure that your goods are delivered just in time?

Project POM Team

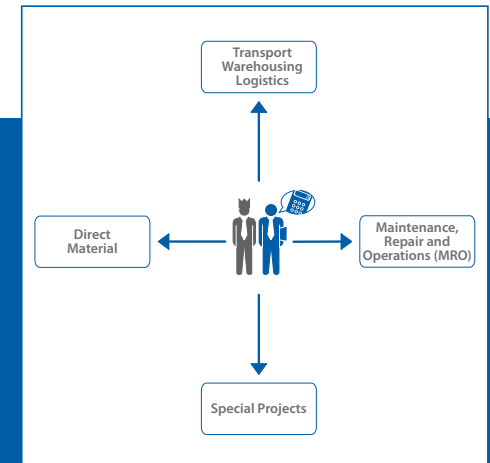

You are launching a new project and are looking for a competent manpower at scalable cost to balance out your peak demands?

On Site Escalation Management

You are looking for experienced manpower at short notice to solve critical bottle necks at your suppliers on site? Do you need to arrange urgent on board couriers?

Cost Down Review

You are looking for a competent partner to analyze and drive down cost within your global supply chain?

PBS – Your Cost Down Partner

Secure on-time manufacturing of your orders with the support of our experienced expediting team and efficient POM tools.

Secured deliveries will **allow for the most competitive supply chains** and thus **significantly reduced logistic cost**.

Benefit from **efficient order management and tracking tools** for standard or project-related use.

Free-up working capital with more reliable supply chains and lower stocks.

Have “Delta Management” Specialists support you to **analyze bottleneck situations on site** and **implement improvement processes**.

Benefit from **scalable subcontracting manpower** – we can offer any manpower equivalents from 25% jobs to full, multi-talented teams.
